

*September 2018, version 1

This tier 1 provider directory includes physicians only. Any advanced practice provider (e.g. NP, PA-C, etc.) associated with a particular practice should be considered a tier 1 MH provider but is not listed on this document for the sake of brevity.
This Tier 1 provider directory does not include Tier 1 behavioral health providers because the list is lengthy and Tier 1 primary care practices currently have stable resources and referral pathways.

Hospitals & Surgical Centers
