Welcome to Dr. Lu Family Medicine, PLLC

Honglan Lu, MD

TEL: 970-241-1370

Welcome to my practice!

1. Patient-Centered Medical Home

Dr. Lu Family Medicine is a patient-centered **medical home (PCMH) program sponsored** by the National Committee for Quality Assurance. Care is coordinated through your primary care physician so you receive the necessary care when and **where you need it.**

2. Services

- Various office procedures
- Chronic care management
- Diabetic education
- Urgent care
- Skin tumor removal
- Skin care
- Joint injections
- Vasectomy
- Preventive care
- Adult care
- Pediatric care
- Women's care
- Behavioral health care

3. Your care, coordinated

We partner with you and coordinate your care with specialists, hospitals, health agencies, nursing homes, qualified providers, community resources, and other health professionals across referrals and transitions in care settings to support your health and well-being.

4. Our principles

- We will listen to you.
- We will be honest and explain your options.
- We will help you make health decisions and respect your decisions.
- We will explain tests and results.
- We use evidence-based care and **self-management** support to improve safety, efficiency, and quality.
- We keep your information confidential.
- We provide a visit summary and current medication list **after each appointment.**
- We help you live a healthy, long life.

5. Prepare for your visit

- Bring a complete medical and mental health history, living situation, relationship status, and employment history.
- Bring current medications with doses and allergies.
- Provide names and contact information for **other medical providers.**

6. Support beyond the office

Information is available through the office phone message system, answering service, and office procedure policy regarding clinic hours and after-hours services, including mental health, evening and weekend medical care facilities, on-call physicians, urgent care/emergency, and hospitals.
